Summary

Allela Eunice is a project and community manager who is passionate about emerging technologies and the growth of the technology ecosystem in Africa and beyond.

Currently, I serve as the Developer Relations Community Manager at Google via Algo Marketing for Sub Saharan Africa where I work towards increasing developer engagement with experts across the region and providing training opportunities through the Google Africa Developer Scholarship Program across all the 54 countries in Africa to developers.My in-depth expertise in the developer community is a result of my previous volunteer experience as a lead community organizer for Kisumu, Kenya.

Over the years, I have engaged in various programs such as MobiGalz, Technovation Challenge, and Grace Hopper Celebration that aims at increasing the visibility of women in the tech space and currently I host the Tambua Women In Tech fireside chat and podcast where I engage various women across the world who are taking lead in the tech space .

I also coached for the Digital Opportunities Trust Street Youth, which is a coordinated support network of youth in Africa and the Middle East who are responding to COVID-19 with needs-based interventions.
